You don't get what you want: You get what you "vibe"

Negative vibes are sent when you are talking about what you DON'T want or when you worry or complain, feel discouraged or fearful, etc. Every one of these feelings causes you to send negative vibes, and in turn, Law of Attraction gives you more of the same.

How do things happen in our lives? Do you believe it's by luck, karma or coincidence? If you do, you're right. But I bet you didn't know you are attracting everything that's happening in your life right now at this very moment, and in every moment of every day. How? The thoughts we think and the feelings we have create what happens to us— essentially we create our world by putting out vibrations or *vibes*. And in the vibrational world, there are only two kinds of vibrations— negative and positive.

This is where Law of Attraction kicks in. Law of Attraction (vibrational energy) is always responding to the *vibes* you are sending by giving you more of the same— whether negative or positive.

So, how does this apply to my Network Marketing Business?

Negative *vibes* are sent when you are talking about what you DON'T want or when you worry or complain, feel discouraged or fearful, etc. Every one of these feelings causes you to send negative *vibes*, and in turn, Law of Attraction gives you more of the same.

Have you ever noticed that you can 'pick-up' or feel someone's *vibes*, especially when they are sending negative ones? So, if you're sending out negative vibes and your potential client is picking up on that, how do you think they're going to respond to you?

Law of Attraction: You attract more of whatever you give your attention, energy and focus to, whether negative or positive.

At a break-out session at a recent network marketing conference, I worked with a group to come up with a list of things they were telling themselves about their businesses. We created over 100 things (mostly negative).

Here are the top five most common things people were saying about their businesses:

1. **It's hard to find people to sign up in my business**
2. **I keep getting team members who don't stay in the business**
3. **I have so much doubt about being successful**
4. **I keep getting rejected when I try to tell others about my business**
5. **I'm not making the money I want. I'm broke and desperate for more money**

Can you hear yourself saying this or something similar? Obviously, it's not what you want, but it *is* what you're vibrating, and Law of Attraction is matching those vibrations perfectly. If you're curious and want to know what *vibes* you're sending about your business, take a look and see what you're getting. It's a perfect match— always.

So, how can Law of Attraction— a perfect *match-er* of vibrations, bring you anything other than what you are sending vibrationally?

Change your vibrations and you'll change the results you're getting.

Each time you hear yourself talk about what you DON'T want, each time you hear yourself complain or observe what you don't want or catch yourself in a negative self-talk pattern, ask yourself this question:

So, what do I want?

In the very moment you hear yourself use the words Don't, Not and No, ask yourself, "So, what do I want?" When you go from what you don't want… to what you DO want, it's not just the words that change. When the words change the *vibes* change. Now, you're sending a positive vibration that Law of Attraction responds to by giving you more of the same.

What I DON'T want	What I DO want
It's hard to find people to sign up in my business	To easily attract people
I keep getting team members who don't stay in the business	Team members who eagerly grow their businesses
I have so much doubt about being successful	My confidence grows every day
I keep getting rejected when I try to tell others about my business	I'm attracting people who want to know more about my business and join me
I'm not making the money I want I'm broke and desperate for more money	My income increases steadily. I have a surplus and abundance of money

Become more deliberate in the vibes you're sending

Over the next couple of days, you will hear yourself say DON'T, NOT or NO. Now you have a tool to help change where you're putting your attention, energy and focus.

Let the question, "So, what do I want?" be your favorite new question.

Post in on your computer, make it your new password, put it on your bathroom mirror, etc. As you change your focus and attention from what you don't want to what you do want, your results will change for the better.

Remember, you don't always get what you want
but you ALWAYS get what you vibrate.
