The Twelve Power Secrets for Network Marketing Success

A book containing secrets that will move you to success!

348 words | 3 pages

Rod Nichols' best selling book, *Successful Network Marketing for the 21st Century* was a staple in the industry during the 1990's and now he's written the book for the 2000's. This book has everything a network marketer would need to be successful. It's packed with million dollar ideas gleaned from Rod's twenty-nine years in the industry and from other top income earners.

It's real, usable information that could turn an average network marketer into a superstar.

The twelve power secrets include: Select the Right Company; Pick the Right Sponsor; Develop Purpose/Goals/Objectives; Right Attitudes and Beliefs; Treat it Like a Business; not a Hobby; Have a M.A.P., Become a

Master Prospector; Treat Different People Differently; Become a Master Presenter; Become a Savvy Internet Marketer; Develop Leaders; and my personal favorite and the most powerful, The Ultimate Power Secret.

Whether you are new to the industry, have been at it for awhile, or are a veteran, this book should be in your library. In fact it should be highlighted, dog-eared, and have post-it notes sticking out from every power secret.

This is truly a comprehensive guide that will help you avoid the common pitfalls and build a successful network marketing business.

If you are a leader, this book should be part of every new associate's training package and used as content for public training.

This is an excellently written book that not only contains powerful content, but is enjoyable to read. It's packed with stories, examples, and personal illustrations that every network marketer can relate to. I believe this is one of the best books ever written on this great industry of network marketing.
