"If You Do What We Did... You Can Have What We Got!"

That's something that I've heard several Top Earners in my business say. Why in the world did it take so long to figure that one out?

The importance of "Getting Started Right" is so critical in any Network Marketing business, let alone any business, for that matter. I was told that if I would *Zip It*, and duplicate what the Top People in my business were doing, I'd eventually be successful!

Isn't it interesting finding things out on your own... or that's at least the way we *think* it happened? I love the Buddhist Proverb quote, "When the student is ready, the teacher will appear." I was @ a National Event, and heard a mentor of mine, Johnna Parr, say that from stage. It took a long time for it to sink in, and here's why I believe that was. **Personal Growth!**

Do you know *WHY* you're doing what you're doing? Do you have a Dream Board up, where you can see it everyday? Have you written down your Goals for 2008 & do you look at them everyday?

Building a strong foundation for a Network Marketing business is so vital for long-term stability & success.

Getting to the point where the *Residual Income* is there for the rest of my family's life is very important to me. I now realize not to take that *lightly* & neither should you!

A couple years ago, I heard about a book that one of my mentors, Robert Fason, recommend reading. I was told to read the book whenever I was going through the ups & downs in the business, but I think it's one to read right away, and fits the title to this month's issue, "Getting Started - Finishing First", perfectly. The book I'm referring to is, **The Season's of Life**, by Jim Rohn. For anyone just getting started on their awesome journey with their Network Marketing business, this book is a must, IMO!

It describes the seasons a person will go through, while building their business.

Sowing and Reaping. How many seeds can you plant in the next 30, 60, 90 days? What does that mean? Remember, "When the student is ready, the teacher will appear."

Build it Big, Build It Fast, but most Importantly... Build It to Last!

Getting Started Right! Follow the Top Money Earners in your prospective business! Call 'em up & tell them you want to be where they're at! Even if you've been in your business for 6 months, a year, or 5+ years, guess what? Tomorrow is a Brand-New Day, and it's the First Day of the Rest of Your Life!

Like John C. Maxwell says, "You Can't Go Back and Make a Brand-New Start, but You Can Start Today and Make a Brand-New Ending!" Start Today & Remember.....*System, System, System!* Start right away by using & following the simple, duplicatable system that your business has established, and it won't be long before your name is being announced from stage as a Brand-New.....*you fill in the blank*!

Get Started Right & watch a whole new world un-fold, right before your eyes!
