Your Family Said NO!

Starting today, stop and write out the amount of money you feel would help you to become financially free.

by **Sean G. Murphy**

864 words | 3 pages

Well, maybe they didn't say it out right, and maybe it wasn't really a family member, but someone has made you feel that you should not succeed!

Here is the hard part, it might even have been YOU, who said you can't achieve financial success... now don't get all mad at me, let me explain.

What is financial freedom?

All too often we think it's more money! Can I ask you a question, do you make more money now than when you were 20, or 30, or 15? IF the answer is yes, well then looking at it logically – "it ain't more dinero" is it. You will always seem to spend more then you make.

So how do you become financially free? I'm not sure if I can tell YOU how to do that, what I can, and hope I can do in a way that makes sense, is give you some suggestions to act upon, and then you can see what kind of results they bring you.

First step

You have to look at where you are at right now, this very day and see what your finances look like.

> ***Do you have a budget? Are you living inside of the budget? What things have you cut from the budget, and did you stick to the new budget?***

Those are some of the hard and fast ways to get a handle on your monies... I want to share with you a perspective we talk a lot about in this business, and that's *your thoughts.*

The average person spends between 80-90% of their time in some form of discussion about money during the day, either in conversation or in their own thoughts. '…the price of gas…', the cost of repair on the car', the babysitter, the clothes at the cleaners, dinner… it's a very interesting cycle we get ourselves into.

Can you do something with me for the next 30 DAYS!? Can you... maybe I should ask you, WILL YOU?

Starting today, as you are reading this article, I want you to stop and write out the amount of money you feel would help you to become financially free. Be realistic... how much extra monthly would begin to get you above water, or allow you to move closer to your goals.

Now you have to do this for 30 days, and report back.

I want you to, each morning, write out the number, example... like you were writing a check.

I am so happy and grateful now that I have $2600 dollars extra in my bank account on a monthly basis

.

I am so happy and grateful now that I have Two Thousand Six Hundred dollars extra in my account on a monthly basis.

I am so happy and grateful now that I have twenty-six hundred dollars extra in my account on a monthly basis.

I am so happy and grateful now that I have 2 thousand 6 hundred dollars extra in my account on a monthly basis.

Here is what I think will happen as you begin this process... it may have already happened when you were reading this:

You brain, your mind, your subconscious said... "That's not how you do it", or "that makes no sense… You know what.. You're right, I'm rich, let's move on!!!" (My mentor would always say that to me and it made me *soooooooo* mad)

You want something you have not had before, it may require that you do something you have not done before, which means you may feel like you have not felt before!

If that's true, then maybe just maybe you're on the right track!

What this does is change the way you look at things, and the things you look at change! If you would like to learn more, check me out, and I will be happy to take you on an amazing journey, a tour if you will, of the success that is waiting deep inside you... only needing to be awakened by looking at things from a different way.

Your friend and student,
Sean
