Change Your Beliefs. It is up to you to do the work of changing your beliefs. And when you do you will be opening up new worlds - literally! This month Chris is going to talk about winning the thought battle, which will help you keep negative beliefs out and positive beliefs and thoughts in. Feed your mind with information that will change your belief. By taking part in this One-Year Plan, you are doing just that. But also ask yourself if you are doing that with

belief.

The truth is that you have an amazing mind with a capacity for learning that is beyond your comprehension. You must believe this. And when you do, you will be unlocking the potential of your mind!

Get the Right Knowledge. Words--if they are not true--are meaningless. I hear children say, "I read it in a book." But is it true? Just because someone says it or writes it, doesn't mean it is true. As learners, we want to get the right knowledge, not just information or opinions. It is our job to seek out information and knowledge and then test it and run it through our minds to see if it is true, and if it can be rightfully applied to our lives in order to make them better and help us succeed. We need to weigh and measure what we learn in order to gain the right knowledge. And when we do, we will be unlocking the potential of our mind!

Become Passionate about Learning. This will take some work, but the only way to do it is to begin learning about things that have an immediate impact in your life. When you learn about a new financial concept that helps you earn money or get out of debt, that will get you fired up. When you learn about a way to communicate that helps you sell more product, that will energize you. When you learn about how to interact with your family in a healthy way and your relationships get better, that will inspire you! Become passionate about learning. And when you do, you will be unlocking the potential of your mind!

Discipline Yourself Through the Hard Work of Study. Learning will take work. Until someone comes up with modules that can plug into your mind and give you instant access to knowledge, you are on your own, and that takes work. The process of learning is a long one. Yes, we can speed it up, but it is still a process of reading, listening, reviewing, repetition, applying the knowledge, experiencing the outcomes, readjusting, etc. Simply put, that takes time. Slowly but surely, when you discipline yourself, you gain knowledge and learn. And when you do, you will be unlocking the potential of your mind!

Learning is possible, no matter what your age. You are never too young or too old. Your mind was created to learn and has a huge capacity to do so. This week, make a commitment to unlock the potential of your mind!

Jim Rohn is considered to be "America's Foremost Business Philosopher". He's been delivering his life and work-changing seminars for over 39 years... addressed over 6,000 audiences and four million people worldwide... he's the recipient of the 1985 National Speakers Association CPAE Award... authored 17 different books, audio and video
