There are many Proven Business Boosting Systems that will put you on the road to success. There is none more effective than what I call the 'Nike system'. Everyone knows the Nike system, ***Just Do It!***

Yes, success starts with starting. Success does not start with figuring it *all* out before you start, you will never start!

Mark Twain was known to say, *"The secret of getting ahead is getting started!"* Success starts with a decision. You don't have to make all of your decisions, you just have to make the decision to start, Just Do It!

Know this, you can not only do it, but you can be a world class success, it's a decision away. Anthony Robbins said, *"At any moment the decision you make can change the course of your life FOREVER."* So let's get off the couch, let's stop feeling sorry for yourself, let's stop waiting for the government to do it for us and let's make a decision to develop a success attitude. Yes, starting, making a decision and pursuing a success attitude are your first 3 steps that can change your life today. One of the people who continues to inspire me year after year, with her attitude is my great friend Mary K Weinhagen, editor of The Network Marketing Magazine. There is never a time I talk to her that I'm not uplifted by her contagious positive success attitude. Find a Mary K in your life to inspire your daily success attitude!

Starting, decision and attitude leads to action. It has been said, *"The consequences of today are determined by the actions of the past. To change your future, alter your decisions today."* Taking action on the decisions you make will have a major effect on your life today, and in your future. Take action now, a wrong action is better than no action at all.

> **One of the best actions you can take is in the investment in yourself through personal growth. There is so much available to you. This is the reason we started The Network Marketing Magazine, this is not a self serving comment, it is what we intended it to be, a YOU serving tool!**

Our industry has more experts that truly want to help you than any other industry that exists. Take advantage of this unique quality of our industry and make it a part of your daily plan.

Another action step you can make is one of the best old fashion success action steps that you can do daily, and that's *talk to people.* That's right, the old fashion way, belly to belly (or if you're not close, at least by phone.) That personal touch is a lost art, but it is one of the most effective tools in the success system. Who do you talk to? Everyone you know, that's the reason you make a list! Never prejudge anyone. You never know who is in the "Looking Zone." The Looking Zone is a period of time in a person's life when they are receptive to hearing about your opportunity. This is why the success activity of "following up" is critical to your success. The list allows you to revisit those you have talked to in the past and guide you to those you should contact.

> **Remember, you can't say the wrong thing to the right person**

and you can't say the right thing to the wrong person! So make the contacts.

So what are the first action steps? Make a list of the 3 things that you can do to make the biggest difference to your future, today and do it. Do the hard things first. When you do the hard things first you will accomplish so much more today, this week this month and in your lifetime.

The most important success principle that guides me is **GBG**, *guided by God*. I start each and every day (and throughout the day) being guided by God. This has NEVER failed me. Some of you know what I'm talking about, but have not trusted this step. Others have never been guided by God and will be pleasantly surprised to see how real and effective this action step will help you! Just remember it is in your hands, Just Do It!

Aim high!
