Chris Widener is an example of how anyone can overcome any odds to achieve a successful life and help others achieve the same. Chris has overcome

many obstacles... living through his father dying suddenly when he was four, being sent away from his family to live with relatives at age nine and becoming involved with drugs and alcohol by the age of twelve. Chris overcame those obstacles and has for the last ten years worked with some of the most financially successful families in America, helping them to achieve both personally and professionally. Now he can do the same for you!
